ECOSMART FIRE OUTDOOR COLLECTION

Create a social gathering point with an outdoor bioethanol fireplace! A cosy and warm fireplace will perfectly complement your contemporary indoor or outdoor space. Available in different shapes, sizes and finishes, you're guaranteed to make memories around our fires.

EcoSmart Fire was launched onto the global stage in 2004 and there have been thousands of installations in residential and commercial properties across 75+ countries. EcoSmart Fire has also played a pivotal role in spearheading the creation of global standards and testing platforms for this ground-breaking wave of ethanol-fuelled fireplaces. Safety is infused into every aspect of EcoSmart Fire's process, from the quality of research and development, to the operational system and built-in safety features. No other manufacturer has a collection so comprehensively tested and listed by third-party laboratories to safety standards.

Behind the stylish façade of EcoSmart Fires is a sophisticated heating system that uses the cleanest, most efficient fuel source on the market: bioethanol.

COSMO

COSMO

Natural

Graphite

Bone
(featuring optional fire screen)

EcoSmart's Cosmo fire table is a great example where the lines between "technology" and "furniture" are starting to blur thanks to its seamless integration of fireplace innovation and functional design.

Part of a new wave of invisible technology where sophisticated engineering is concealed behind minimalist design principles, Cosmo combines an environmentally-friendly, clean burning fireplace with the practical features of a low-slung lounge table. Ideal for modular furniture configurations and interiors where space is at a premium, it enables guests to enjoy the warmth of an open fire without embers, ash and soot ruining the ambiance.

In fact, with no installation or building works required, you simply unpack, put into position and enjoy the ambiance that comes with an authentic EcoSmart Fire.

Bone

Taking its cues from one of the world's most densely populated cities where real estate prices are sky-high and square footage comes at a premium price is a fire table that combines ingenuity with functionality.

With its self-contained energy source, generous sideboard and portable construction, EcoSmart's freestanding Manhattan fireplace knows how to make the most of a small space. Fuelled by environmentally-friendly bioethanol, the fully integrated, multifunctional design means homeowners can enjoy the ambiance and tranquility of a real fire without the inconvenience of burning real wood – that means no more embers, ash and soot to clean up.

In fact, with no installation or building works required, you simply unpack, put into position and enjoy the ambiance that comes with an authentic EcoSmart Fire.

Graphite

Blending the simplicity of an outdoor fire pit with the functionality of a standalone table, EcoSmart's Wharf fire table adds style and practicality to any architectural environment.

Ideal for courtyards, patios, pool decks and terraces, the all-weather, earthy design evokes the atmosphere of an open flame minus the by-products associated with a wood-burning fireplace. Its natural colour palette and perfect blend of fire and stone make it an easy choice for landscape architects and design professionals.

LIGHTHOUSE SERIES

LIGHTHOUSE SERIES

Natural (LH150)

Graphite (LH300)

Bone (LH600)

The Lighthouse Series is available in three sizes – 150, 300 and 600 – and are striking either standalone or as a collection.

For effortless design consistency, all three can be installed in different parts of an outdoor area. For example, the smallest fire – the Lighthouse 150 – can provide the perfect benchtop fire; the Lighthouse 300 can offer an eye-catching enhancement to any outdoor living or dining area; and the Lighthouse 600 makes a dramatic entry feature. And the beauty is that they can be easily moved, so the choice is yours!
